I N introducing to the public our combined REAP ER and MOWER-the "Kentucky Harvester." we claim only to have produced an article embracing every good principle known in machines of this des-cription, and one which, in point of strength, simplicy, workmanship, materials, and adaptation to South m wants, we are confident has no equal. We do not design to compare this with other ma chines, but will proceed to give you an idea of its general arrangement and advantages: In the construction of our Machine wrought iron

has been substituted, as far as possible, in the place wood and cast iron. The main or driving wheel, as well as the gearing throughout, is larger and more substantial than it any other Reapor, and this Machine will run with renter steadiness and freedom over uneven fields than any other, as well as support itself better on soft ground. It operates also with much less noise than ther Reapers, and without any jerking motion, in onsequence chiefly of the knife being attached to a sheel instead of a crank.

All parts of the Machine are readily got at, taken

nt, or adjusted by the operator.

The frame of the Machine is made to move up or down in guide holes or sloats, so as to bring the cut-ters to any required height, cutting from one inch to sixteen inches from the ground, in the most conveniedge, and require little or no grinding. They can be taken out or put in in a moment, without passing them through the arms of the driving wheel, which is a great convenience, and obvintes a serious objection to many combined and other Reaping Machines.

Width of cut 54 feet.
Two horses will drive this Reaper without fatigue the gearing, at a slow walk for the horses, giving am-ple motion to the blades. The driver's sent is else vated and easy, giving him complete command of his team, while at the same time he can watch the operation of every part of the Machine, and if necessary instantly throw it out of gear by the lever at his lef ide, without moving from his seat. Only one man

side, without moving from his seat. Only one man is required to manage the Machine when Mowing, or two for Reaping.

The arrangement for delivering the grain allows the raker, who stands upon the platform facing his work, to throw off the bundles with the greatest ease, lepositing the cut grain at one lick in an open space

I shall not seek to trace the causes of this change. These are the facts, and it is for you to ponder upon them. Of the present Administration I have nothing to say. I can appreciate the difficulties of administering this government, and if the present executive and his supporters have with good intention and honest hearts, made a mistake, I hope God may forgive them as I do (loud and prolonged applause.) But if there be those who have brought these calamities upon the country, for selfish and ambitious jects, it is your duty, fellow-citizens, to hold them to a strict responsibility .-

(Cheers.) The agitation which disturbed the peace of the country in 1850, was unavoidable. It was brought upon us by the acquisition of new territory, for the government of which it was necessary to provide territorial administrations. It is for you to say whether the present agitation, which disturbed here this morning with dates to the 21st ult.

> our political compact means. The first years of our National life were spent in establishing the relations of the States to the Federal Government,-avoiding, on the one hand, the concentration of Federalism; on the other, the dissolving tendency to State isolation. The exact connections of the States, and the Federal Union were happily settled,-producing a harmonious and strong Republic. This condition of things was not the result so much of practical legislation on questions of administrative policy, as it was of the abstract discussion before the people of the principles of our Constitution. For it is obvious, that during the period of the contest between the Republican and Federal parties, there was but little difference between them on matters of administrative policy; never, indeed, until the conclusion of all the questions that first divided and gave time, in name and hostility, the extinction Board of Directors, on Thursday, the 24th of July of the original grounds of quarrel.

Then succeeded two political organizations, constructed from the ruins of both the Federal and Republican parties. The Whig and Democratic conflict commenced where the Republican and Federal was concluded. Both asserted the same doctrine,-viz:that the Constitution should be strictly construed, and that none but powers positively delegated to Congress, with such as were necessary to carry out that delegated jurisdiction, should be exercised. Yet, when the application of this principle of strict construction was made to measures of administrative policy, multiplied by the increasing legislation of the country, a wide difference in party issues at once marked the politics of the day. However, this difference only related to the application of principles settled by the struggle between the Federal and Republican parties.

This state of things lasted until the origin of the American Party. Questions of mere administrative policy had ceased to be substantial issues between the Whig and Democrat .- All measures of that character had been put to rest. There was nothing for the party out of power to live upon .-There was nothing for the party in power to sustain their organization, save the spoils of office. If the party run- write three letters to explain one vulgar question of Slavery, so often made the hobby of the demagogue, for electioneering purposes, at length became a festering sore in the body politic, without a remedy from either of the old parties. Civil war was impending, inflamed by unprincipled partizans, and aggravated by the unwise measures of the Administration placed in power by the Democratic party. Thus it became the duty of all, who desired to preserve our liberties as transmitted to us from a long revolutionary struggle, to enforce, if possible, the principle, that Americans alone should control our country: -in other words, that this country should be free from life giving evidence of philanthropy. He Been telt, and his correspondence and conbeen felt, and his correspondence weighed. foreign influence.

-We do not mean, by foreign influence the votes of citizens naturalized honestly, mean that foreign vote that sympathizes

This is the principle. The measure to accomplish it may be at first stringent, and apparently harsh, in the opinion of many affected by it. But, when the principle becomes fixed, by the adoption of inflexible and safe naturalization laws, and the elecsure may and will be removed.

The same spirit that actuated the movement with reference to foreign influence, also directed attention to ecclesiastical interference. It is beyond all question, that the safety of our institutions requires a then we defy the Democratic anti-American and soul,-that looks like JAMES BUCHAN- a spiritual character, to a foreign potentate should be permitted.

Again: The permanency of the Union requires imperatively, that all further agitation of the slavery question should be at once and forever arrested. Let whatever legislation may be good, as well as what may be evil, stand; rather than sever the ties of our national brotherhood.

Thus we have outlined the three fundamental propositions, which have been offered to the country for its adoption, by the American Party. If they become the sentiment and deep-rooted policy of the land, our Union is safe; and the blessings those of Milland Fillnors; and in the lat- ness and secretnesses of statesmanship! transmitted to the remotest generations.

Summer. -BY HON. MRS. NORTON This is the time of shadow and of flowers, When roads gleam white for many a winding When gentle breezes fan the lazy hor

And balmy rest repays the time of toil— When purple hues and shifting beams beguile The tedious sameness of the heath-grown moor— When the old grandsire sees, with placid smile. The sun burnt children frolic round his door, And trellised roses deck the cottage of the poor, The time of pleasant evenings, when the moon

Rises accompanied by a single star.

And rivals e'en the brilliant Summer noon,
In the clear radiance which she pours afar—
No stormy winds her hour of peace to mar,
Or stir the fleecy clouds which melt away
Beneath the wheels of her illuminated car;
While many a river trembles in her ray,
Andsilver gleams the sands round many on ocean bay

Oh, the heart lies hushed, afraid to beat On, the heart hes hushed, atraid to beat
In the deep absence of all other sound;
And home is sought with loath and lingering feet
as though that shining tract of fairy ground
Once left and lost might never more be found;
And happy seems the life that gipsies lead,
Who make their nests where mossy banks abound
In nooks where unplucked wild flowers shed their sees
A converse appreciation tent the only root they need. A canvass spreading tent the only roof they need!

Some of these Days,-BY. C. GRIEVE. CHAPTER I

I had a royal estate upon the Mississippi, about a hundred miles above Orleans, managed by a man who was both a treasure and a curiosity; for he was perfectly competent, entirely devoted to my interest, and supremely honest. He must have been purposely created to take charge of my business. I think he was convinced of the fact-was proud of it, and believed that Fate and Nature had constituted him special guardian to my helpless self.

Then I had bank stock and wharf property in Orleans, which paid me a great income. Christian Corke's nephew-a merchant there-collected this and paid it to me halfyearly. I had nothing to do even in my own affairs. You have seen some people world will not let help themselves. Well, it seems I am one of that sort. Everybody waits on me.

My father and mother slept under their marble slab, among the orange trees. Once I had a wee sister, long ago. Her little urn glistened under the orange trees, too. There was no one to control me, not even dear old Aunt Deborah, who was my only near relative, and who kept my house, because she did not know what that boy George would do without some one to look after him. In her eyes I was human perfection, and she waited on me even more than the rest.

My own master, an ample fortune, and nothing to do-what a trinity of qualities. the floor. I read everything, from romances to polemics-from bagatelles to science-from poetry to politics-rode, hunted, and knew society from Boston to Orleans. I felt very comfortable, and was perfectly satisfied with my world as it was.

I had reached the mature of age of sixand-twenty, without committing matrimo-

This is to certify, That I was afflicted with Sore Breast for several weeks, and had some three or four of our best physicians attending me, but none could relieve me, and after lancing my breast three times without the desired effect, they concluded that it would have to come off to save my life, and had prepared their instruments to operate on my breast, when a friend advised me to try L. Carter's Compound, as she knew it to be a good remedy. I immediately sent for a box, and applied a portion of the Compound to my breast, and in less than twenty-lour hours I was entirely relieved of all min and unessis. hours I was entirely relieved of all pain and uneasiness, and I am happy to say that a permanent cure was effected in a short time, and I can cheerfully recommend this Remedy to all mothers afflicted with Sore Breast.

HOLLOWAY'S PILLS. WHY ARE WE SICK!-It has been Holloway's Pills are specia ted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway per-sonally superintends the manufacture of his medi-cines in the United States, and offers them to a free

and enlightened people, as the best remedy the world ever saw for the removal of disease. These Pills purify the Blood .- These famous pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing diseases in all its forms.

Dyspepsia and Liver Complaint.—Nearly had the human race have taken these Fills. It has been proved in all parts of the world, that nothing has been found count to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however soon give a healthy tone to these organs, however much deranged, and when all other means have failed. General Debility, Ill Health.—Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to affort relief.

Female Complaints.—No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.
